

# Vendor Default API 2.0

Request a single creative for a single play out with a unique proof of play.

This proof of play needs to be fired within 1h after the request.

Find your **org\_token** in your Screen Manager Dashboard under “Organizations”:

<https://dashboard.framen.io/account/orgs>

## Get Spot

**GET** [https://api.framen.com/v3/vendor/{org\\_token}/1/rt\\_ad/{screen\\_id}](https://api.framen.com/v3/vendor/{org_token}/1/rt_ad/{screen_id})

Get a list of all screens from your organization

### PATH PARAMS

<i>key</i>	<i>type</i>	<i>required</i>
org_token	string	true
screen_id	string	true

### RESPONSE (JSON)

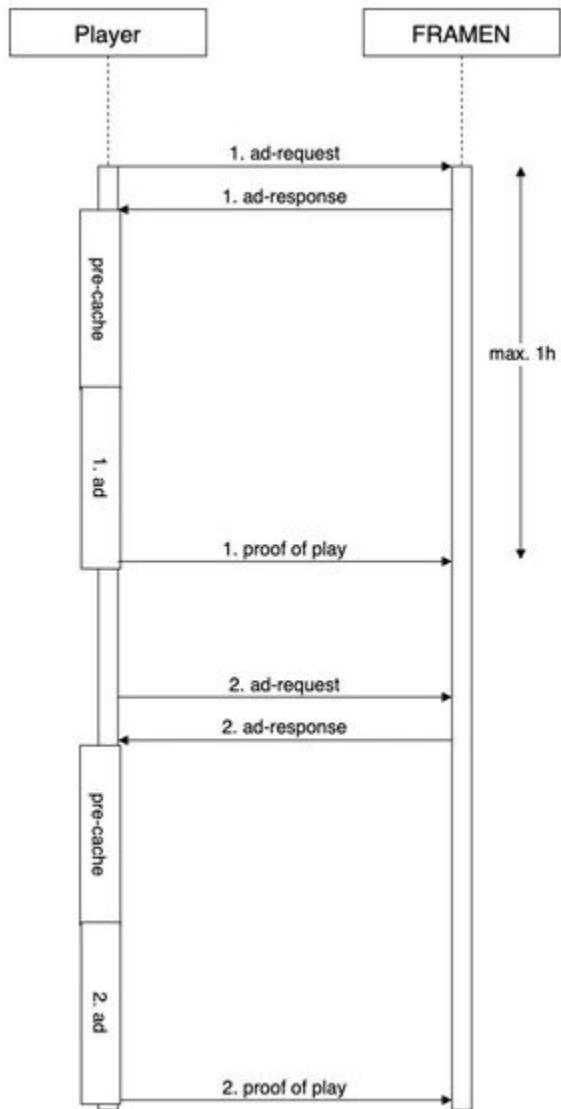

<i>key</i>	<i>type</i>			
data	<i>key</i>	<i>type</i>		<i>examples</i>
	requestId	string		3f7655be-2c46-4d98-a8d5-5bcb03d118c9
	news	<i>key</i>	<i>type</i>	optionally null
		id	string	Itm_8Mfw51PXwMt
		title	string	Putzerlippfische erkennen sich
		mimeType	string	text/html
		height	int	1080

	billable	boolean		true   false
	newsFirst	boolean		true   false

"pop": string!

This stands for proof of play and comes in form of a GET-URL that must be called a single time, after the item was shown.  
A pop URL request can only be registered once to confirm the play of an item.

Request cycle flow:
